Compression Stockings and Armsleeves

The premium product for those with higher expectations.

Pure silver

Contains silver-coated X-Static® fibre.
No reduction of the properties of silver even after 150 washing cycles.

Heat conductive

Silver is well known for its excellent heat conductive properties. In combination with the microfibre TACTEL®, silver produces rapid dissipation of skin moisture.

Durable

Suitable for active men and women, thanks to the innovative yarn combination of silver and cotton.

Colours

Due to technical printing reasons the colours may vary.

Black

Sand

Marokko

Mexico

40 % TACTEL® Polyamide
30 % Elastane
20 % Cotton/Baumwolle
10 % X-Static® – The Silver Fiber™

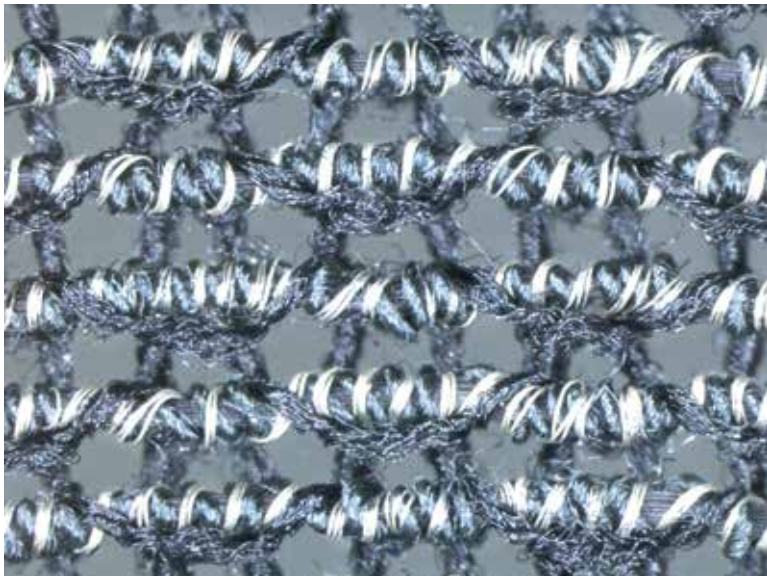

TACTEL® fibre is a registered trademark of INVISTA and is used under license to NILIT® for nylon fibre products.

RAL Gütezeichen not valid for armsleeves!

HOW SHOULD YOU TAKE MEASUREMENTS?

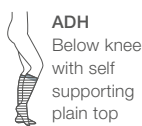

Compression Stockings

For correct measurements it is very important to take your time and proceed systematically. Whenever possible, the measurements should be taken when the leg is rested and not swollen. The measurements should always be taken with the patient standing. Well fitting medical compression stockings are the key to a successful treatment and satisfied patients.

MEASURE:

AD
Below knee

ADH
Below knee
with self
supporting
plain top

Below knee AD, ADH

1. the circumference of the ankle cB
2. the circumference of the calf cC
3. the circumference of the leg just below the knee cD
4. the length of the leg from the base of the heel to just below the knee lD

AGH
Thigh length
with self
supporting
lace top

AGH
Thigh length
with self
supporting
plain top

Thigh length with self supporting top AGH, Thigh length with belt left or right AGG

1. the circumference of the ankle cB
2. the circumference of the calf cC
3. the circumference of the leg just below the knee cD
4. the circumference of the thigh cG
5. the inside leg lG (for AGG up to the groin lK)

AGG
Thigh length
with belt

AT
Pantyhose

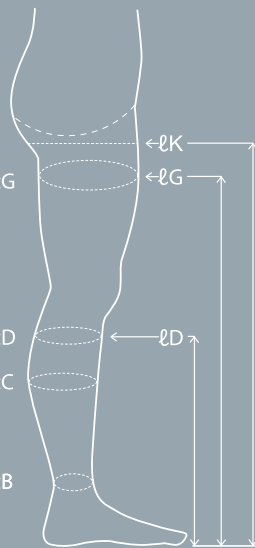

Thigh length for Pantyhose AT

1. the circumference of the ankle cB
2. the circumference of the calf cC
3. the circumference of the leg just below the knee cD
4. the circumference of the thigh cG
5. the length up to the groin lK

Measurement Position / Circumference Measurements

- cG** Thigh (5 cm below groin) ————— **cG**
- cD** Narrowest point approx. 2–3 cm below the knee ————— **cD**
- cC** Widest part of the calf ————— **cC**
- cB** Ankle (narrowest point above ankle bone) ————— **cB**

Length Measurements

- lK** Up to the groin
- lG** The inside leg
- lD** The length of the leg from the base of the heel to just below the knee

CIRCUMFERENCE MEASUREMENTS (CM)

	SMALL	MEDIUM	LARGE	X-LARGE
cB Ankle	20–23	23–26	26–29	29–31
cC Mid-calf	29–39	33–42	36–45	39–47
cD Below the knee	28–38	32–41	35–44	38–46
cG Thigh	48–63	54–67	58–72	63–74

LENGTH MEASUREMENTS (CM)

AD/ADH	lD	short	35–40
		long	37–42
AGH	lG	short	63–72
		long	68–78
AGG	lK	short	67–74
		long	74–85
AT	lK	short	67–74
		long	74–85

SIZE

It is important that we achieve the correct pressure gradient in accordance with the compression class prescribed by the doctor. The pressure exerted on the leg is determined by 2 factors:

- a) Physical law (LaPlace), which says that with constant tension the pressure is reduced with increased circumference and vice versa.
- b) With increased stretch the tension is increased and vice versa. One effect is therefore partially compensated through the other: Larger circumference = pressure loss due to circumference, but pressure gain due to increased tension of the material.

Thanks to more than 50 years experience we are familiar with these effects and can therefore offer a simple size range in accordance with our sizing chart, which guarantees medical efficacy.

For legs with a special shape or form we offer a made-to-measure service with extra fast delivery. Please ask for the special order form for made-to-measure stockings (REF 995220E).

LENGTH

VENOSAN® 5000 has a very high stretch in the length and adapts to almost every leg length without slipping.

Subsequently compare with the size chart for:

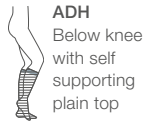

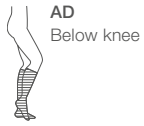

1. Which size does the ankle circumference cB fall into (small, medium, large or x-large)?
2. Which size do the other measurements fall into cC, cD and cG?

Custom made stockings may not be returned for credit. The manufacturer cannot be held responsible for incorrect measurements.
